- BONUS FLOORS
- Get bonus floors in a random round.
- Bonus Mode
- For instance, the player with the winning odds of x5 randomly receives the freezing bonus. Then the player keeps on playing and reaches the winning odds of x10, which s/he decides to cash out. In this case, the player's win amount equals the bet amount multiplied by 10.
- In one game round, there can be only one freezing bonus received. In addition, no bonuses can be received if the player has already won the freezing bonus. After the end of the Frozen Bonus session, all the floors will either be dropped with the winning odds equal to or higher than x1.5, or will collapse with the odds of x0.
- Bonus Requirements
- If the player receives a bonus, s/he can use it to make bets according to the bonus requirement. The player can get a Free Bet (specified number of free bets) or a Free Amount (free bonus money).
- For example, if the player has received 10x100 Fun, it means that s/he has an opportunity to make 10 free bets of 100 Fun each. In the case of Free Amount, the player receives bonus money (e.g., 1000 Fun) for betting. The player should activate bonuses to use them. If the player wants to make a bet with real money,

s/he should deactivate the active bonus (Free Bet/Free Amount) and only then play with real money. If the bonus balance is less than the bet amount, an error about insufficient bonus balance is displayed.

4	5 000,00 PLN	100%	5 000,00 PLN	5 000,00 PLN	100	350 000,00 PLN

TotalD13 750 PLN, B12 500 PLN,325 FS, countable turnover 918 750 PLN for all four independently activated stages. The denomination and winnings of 325 FS are not added to B12 500 PLN. In the first calculation slice, the eligible slot turnover 2 000 PLN and Tower Rush500 PLN with a contribution of 0% gave only 2 000 PLN of progress. The remainder of 129 250 PLN is not divided by 0; the selected episode ended with the cancellation of the welcome, and not with fictitious completion. The promo-FS from the source advertising packages refer to separate game lists and are not turned into free Build of the original Tower Rush.

FB-01 — ten free demo bets

I activated 10 rights of 100 FUN and used each one once. No cash debit was performed; the remaining rights and the demo credit were accounted separately. The nominal volume 10×100=1 000 FUN is not called the reward received.

Bet	Rights before	Spent	Rights after	Denomination	Multiplier	Gross FUN	Accumulated credit FUN
FB-01	10	1	9	100,00 FUN	0,00	0,00	0,00

FB-09	2	1	1	100,00 FUN	2,80	280,00	1 170,00
FB-10	1	1	0	100,00 FUN	2,00	200,00	1 370,00

Rights 10→0; total demo-credit1 370 FUN; the initial demo-cash100 000 FUN became 101 370 FUN without cash bets of this series. This is a virtual bonus episode, not 1 370 BDT of external receipt.

INC-FREE-01 — accrual and expenditure Free Amount

I matched the right to fixed 250 BDT Free Amount with the initial accrual of 0 BDT. After contacting 12:07:00, the first substantive response from 12:10:20 and the correction of 12:16:40, the bonus panel received 250 BDT. The adjustment 250−0=250 BDT was entered once into the bonus wallet; the cash of the main OP-01 did not change. A separate sequence of five bonus bets on 50 BDT with gross0 gave bonus250→200→150→100→50→0 BDT; the right was fully spent, game bonus-net−250 BDT, available cash conversion 0 BDT. The error in the initial accrual remains a separate shortcoming, even after correction.

Cashback, operator Points and absence of double income

CB-01: loss=max(0;10 000−8 700−200)=1 100 BDT; gross cashback=min(1 100×8%;500)=88 BDT; previously issued 20 BDT; added 68 BDT. Total cashback for the period 20+68=88 BDT, not 108 BDT. Pending300 BDT did not go into settled-loss. Points after exchange 100→100 BDT received a separate×1 cash turnover 100 BDT; the nominal value of 200 points for setup was not called immediate cash200 BDT. The showcase offers 1win and Melbet retained their original currencies and restrictions.
