Parimatch Crypto Casino ⊳ Play the best casino games with Bitcoin

- Turn off the endless tabs with reviews, guides and ratings. If you need a reliable iGaming operator to play online without doubts about software quality and withdrawal fairness, there is nothing further to look for. Parimatch casino offers in one solution licensed slots from triple-A providers, a demo account without registration, profitable bonuses with simple wagering and a glossy-built zone with the best live dealers in the industry. - The rest are no less titled but more modest in marketing game dev providers. At Parimatch casino, you will find industry veterans with an ironclad reputation, new-wave crypto vendors, exotics with an Asian code and niche studios that work pointwise for the visual superiority of games. Each distributor of gambling content is connected under a direct contract, officially, without scripts and makeshift ports. As a result, our clients receive the best online casino games that have a certified RNG, adaptive settings for bets and bonuses, transparent payout tables and uptime allowing them to spin the reels under conditions of maximum uninterrupted sessions. Finally, the video slot catalog is updated weekly, and our own showcase "Parimatch Exclusive" adds branded gaming machines unavailable outside the resource.
- "Gates of Olympus" will build an endless tumbling chain of combos on six reels, where a sudden multiplier multiplies the win many times over. "Fire in the Hole 3" turns every fall of symbols into an xBomb salute, opening new rows and stretching the giving potential of the machine's characteristics. For fans of fixed lines, "Book of Ra Deluxe" is suitable as a classic "book" slot with an expanding symbol. For hunting cluster payouts, test "Starburst Galaxy"; for fans of retro, we advise playing "Mega Joker". If you are looking for new

sensations, launch "Gates of Hades", which breaks the canonical cascading grid into two game phases with different volatility.

- Such splitting makes it possible to filter the Parimatch casino library to your own temperament and assemble an individual "playlist". At the same time, it is important not to forget about a responsible approach, because it is one thing to play in demo for free, and quite another to risk hard-earned funds. To avoid problems with gambling addiction, set time and deposit limits in advance, and consider winnings as a pleasant bonus to exciting pastime, not a source of income.

Table tennis betting online at BC Parimatch Uzbekistan.

- To increase your own chances of winning, it is very important not to have your own favorites among the players. Do not forget that betting is a source of income, so emotional bets often lead to defeats. It is better

The odds set by the bookmaker also help to form a correct idea of the upcoming match. - The Client may have only one Account. For the purposes of this clause, at the Provider's discretion, Accounts of different actual persons who are members of the same family and/or live in the same household, use the same email address and/or phone, and/or payment account, and/or IP-address, and/or shared device, may be considered as Accounts of the same person.
- All data in the provided documents must fully match the information specified by the Client in the Account. The documents must be valid, and the photo of the owner, date of birth and date of issue/expiry must be clearly visible. When the Provider requests a photograph of a payment card, the Client is obliged to hide the three-digit code CVV/CVC. The Provider never requests the code CVV/CVC. The Provider may establish additional reasonable requirements for documents (validity period, image quality, language, translation, etc.). In the event of a change of data after the creation of the Account, the Provider has the right to request documents both "before" and "after" the changes, with confirmation of the fact of such changes. The Provider may also use other verification methods (for example, calls or video communication). Verification periods are set individually; on average, consideration of each Client response takes up to five (5) days.
- If the Client fails to provide the requested verification documents or information within fourteen (14) calendar days from the moment of the Provider's request (sent by email, phone or via remote video verification), the Provider reserves the right to suspend the Account, restrict further gaming activity and refuse to process withdrawals of funds until the completion of the Customer Due Diligence procedure (CDD). If the Client continues to fail to comply with the requirements or refuses to comply with them, the Provider may terminate the Account and return the remaining net deposit balance to the original payment source, provided there are no suspicions of illegal activity.
- In the event of suspicion of suspicious activity and/or fraud, the Provider has the right to suspend the ability to withdraw funds from the Client's Account until their verification is completed. Until full initial verification of the Account data, the Provider may, at its discretion, suspend the ability to withdraw funds. In addition, when launching additional or repeated verification under this section, the Provider may also suspend withdrawal of funds until the verification is completed.
- The Provider reserves the right to terminate these Rules and close the Client's Account with the return of the remaining funds (minus withdrawal fees, if applicable) at its own discretion, without explanation and without prior notice.
- In order to be able to place bets, the Client is obliged to top up their Account with real funds in accordance with section 6. The Client expressly confirms that the Provider is not a financial institution and no interest is accrued on funds deposited into the Account.

- If the Client has not deposited (or withdrawn) funds to/from the Account or has not placed bets for twelve (12) consecutive months, the Provider has the right to charge a monthly administrative fee in the amount of 5 (five) US dollars or the equivalent in another currency (or an amount equal to the current Account balance, if less). The Client hereby authorizes the Provider to deduct the specified fee until the Account balance is exhausted (in which case the Provider has the right to close the Account and terminate these Rules immediately) or until the Client makes a new deposit, withdraws funds or places bets (whichever occurs first). The Provider will notify the Client by email at least 24 hours before applying the administrative fee to an inactive Account. The Client has the right to appeal the closure of the Account by contacting
- Subject to other provisions of this section, the Client may top up the Account using the payment methods available on the "Deposit" page of the Website at the time of the operation.
- Top-up of the Account may be carried out only using payment accounts (for example, bank card, bank account, e-wallet, etc.) owned by the Client and registered (issued, opened) in their name. The Provider rejects all payments from third-party accounts. For the avoidance of doubt: a deposit cannot be made from a corporate card or similar account. If such third-party payments were credited to the Account, the Client is obliged to immediately notify the Provider, and the Provider will deduct the specified funds from the Client's Account. In the event of failure to notify, the Provider has the right, in addition to the deduction, to withhold as a penalty the amount of such third-party payments together with the amount of winnings received after the deposit of these funds.
- The Provider has the right to establish a minimum deposit amount (the amount allowed to be deposited through one payment operation) and to change it at any time. The current minimum deposit amount is always displayed on the "Deposit" page of the Website. If the minimum deposit amount is not specified on the said page, it is considered equal to 5 (five) US dollars; however, higher limits may be set individually by the relevant payment providers in accordance with their rules and payment processing requirements. The maximum deposit amount through one transaction may be limited by the provider of the payment method selected by the Client.
- The Provider does not provide currency exchange services. The internal operational currency of the Website is US dollars (USD), as well as any other currencies available on the Website at the time of or after the Client's registration. In this regard, when topping up the Client's Account, multiple currency conversions are possible, and the Provider is not liable for related losses.
- Deposits and withdrawals may be accompanied by fees depending on the selected payment method. The current fee structure is displayed on the "Deposit" and "Withdrawal of funds" pages of the Website. Additional fees may be charged by the Client's issuing bank, payment system, e-wallet or other payment service providers; such fees are outside the control and responsibility of the Provider.
- The timeframes for crediting deposits depend on the selected payment method and may change. The current timeframes for each method are always displayed in the Client's Account at the time of making the deposit and take precedence over previously indicated information.
- Subject to other provisions of this section, the Client may withdraw funds from the Account using the payment methods available on the "Withdrawal of funds" page of the Website at the time of the operation.
- Withdrawal of funds from the Account is available only after the Client has made at least one successful deposit. Clients who have not yet made their first deposit may participate in individual promotions or no-deposit offers, however, withdrawal of any funds (including winnings obtained within such offers) becomes available only after the first deposit is made and confirmed.
- The Client confirms and agrees that, for the purposes of the Provider's compliance with the requirements of AML, when making a deposit, the Client is not entitled to withdraw the specified deposit until the wagering conditions defined below are fulfilled (the Provider will reject such withdrawal until these conditions are fulfilled):

- For the purposes of clause 7.2 (including all sub-items), unless expressly stated otherwise, the deposit amount includes the deposit itself and all possible winnings from its use (including winnings from previous bets using this deposit).
- In order to withdraw the corresponding deposit, the Client is obliged, using it, to place bets in a total amount equal to one hundred percent (100%) of the amount of this deposit (winnings, settled bets with odds of 1 and through Cashout are not taken into account). After fulfilling the wagering conditions, the Client will be able to withdraw the corresponding deposit amount.
- If, after fulfilling the wagering conditions for a deposit, the Client decides to top up the Account with a new deposit before withdrawing it, such new deposit is also subject to the same wagering requirements. At the same time, the Client has the right to withdraw previous deposits for which the wagering conditions have been fulfilled.
- If, before fulfilling the wagering conditions for any deposit, the Client decides to top up the Account with a new deposit amount, such new amount is also subject to the same wagering requirements before it becomes available for withdrawal. For the avoidance of doubt, fulfillment of wagering conditions is considered separately for each deposit in the order they were made (on a "first in, first out" basis), and no bet is counted simultaneously toward fulfilling the wagering conditions for more than one deposit. A fee may be charged for withdrawal of funds; when applied, the exact fee amount is displayed in the Client's Account at the time of submitting the withdrawal request.
- The Client agrees that any winnings from bets placed using a specific deposit are included in the amount of such deposit and may be withdrawn only after the wagering requirements for that deposit have been met.
- For the purposes of this clause 7.2 (including all subclauses), deposits are used in the following order:
- The Provider may, but is not obliged to, allow the Client to withdraw funds before fulfilling the wagering conditions for an additional fee (to cover the Provider's AML-risks) in the amount of at least 5% of the deposit amount.
- Withdrawal of funds may be carried out only to payment accounts (e.g., bank card, account, e-wallet, etc.) belonging to the Client and registered in their name. The Provider rejects all withdrawals to third-party accounts. For the avoidance of doubt: withdrawal cannot be made to a corporate card or similar account. Moreover, withdrawal may be made only to the payment account that was previously used to make a deposit. If the Client for any reason cannot use this account (e.g., it has expired), then to withdraw funds to a new account the Client must first top up the Account with at least the minimum deposit amount from this new account. Only after this can it be used for withdrawal.
- The Provider has the right to set a minimum withdrawal amount (the minimum amount allowed for withdrawal via one payment operation) and to change it at any time. The current minimum withdrawal amount is always displayed on the 'Withdrawal' page of the Website. If the minimum withdrawal amount is not indicated on the specified page, it is considered that the applicable minimum withdrawal amount is determined individually by the relevant payment provider and may vary depending on the method used. The maximum withdrawal amount per transaction may be limited by the provider of the payment method chosen by the Client; in such case, withdrawal is carried out in parts. In addition, the Client agrees that the Provider, based on internal operational features, has the right at its discretion to split any withdrawal operation into several (equal or unequal) transactions.
- The Provider does not provide currency exchange services. The internal operational currency of the Website is USD and EUR. In this regard, multiple currency conversions may occur during withdrawal of funds, and the Provider is not liable for losses associated with this.
- The processing and crediting times for withdrawals depend on the chosen payment method and banking partners and may change without prior notice. The current times for a specific method are always displayed

in the Client's Account at the moment of submitting a withdrawal request and are considered effective at the time of the operation.

- All payments made on the Website are final and non-refundable.
- Requests for deposit refunds are considered in accordance with the refund policies of the relevant payment provider. The Provider does not process deposit refunds, except in cases of proven fraud, participation in gambling by minors, or other illegal actions of the Client. In such cases, the remaining funds may be transferred to the affected parties or to charitable organizations at the Provider's discretion.
- If a transaction is deemed risky by the Provider or the payment provider for security reasons or legal grounds, the Provider will initiate the return of such transactions back to the relevant payment account and will notify all necessary authorities and parties.
- The Client acknowledges that all payment operations are processed by external financial institutions and/or payment providers. The Provider does not control such processes. Once a transaction has been successfully processed and credited to the Client's Account, it is considered valid, final, and non-refundable.
- In case of suspicion of financial fraud, including but not limited to unauthorized use of payment means ('carding'), manipulation of game results, or other fraudulent activity, the Provider reserves the right:
- In case of suspicion of fraudulent actions by the Client, the Provider reserves the right to suspend their Account and all withdrawal operations. In case of confirmed fraud, the Provider has the right to withhold all funds in the Client's Account as a penalty. All payouts of winnings obtained as a result of fraudulent actions are considered erroneous and remain the property of the Provider, and the Client is obliged to return them. The Provider also reserves the right to notify competent regulatory authorities about the Client's fraudulent actions.
- The Provider reserves the right to withhold any payments in case of suspicions or evidence of manipulations with the Website. Criminal proceedings may be initiated against persons who manipulated the Website or attempted to do so.
- The Provider reserves the right to invalidate a concluded Betting agreement (including one concluded before or after the start of the event), to refuse to fulfill obligations under such agreement (including refusal to pay any winnings) and/or to refuse to return any placed stake if:
- If the investigation confirms the fact of unfair sports competition during the event or the influence of unfair sports competition on the outcome of the event, the Provider has the right to refuse to return the stake and pay winnings on the relevant bet, as well as to contact law enforcement authorities to verify the Client's involvement and hold them accountable in accordance with the law.
- Deposit limit
- , to file a complaint related to the use of the Website. A complaint is considered by the Provider only if it is submitted within six (6) months from the date of the relevant gaming session. All monetary transactions are processed by independent third-party payment providers under their own terms and conditions. The Provider will make all reasonable efforts to assist, but cannot guarantee the speed or outcome of an investigation conducted by such providers and is not liable for delays or actions beyond its control.
- If a bet was accepted or a payment was made as a result of an error by the Provider, it has the right to cancel all related bets. In such case, erroneous winnings are debited from the Client's Account, and stake amounts are returned.
- The Provider reserves the right to reject any claim regardless of the amount if it is established that the Client has violated these Rules (e.g., multi-accounting, fraud, bonus abuse, providing false data during AML/KYC). In such cases, the Provider has the right to withhold or cancel payments, annul winnings, and/or permanently restrict the Client's access to the platform.

- Regardless of the Provider's right to close the Account in case of violation of the Rules or legislation, it reserves the right to close the Account at its own discretion without explanation, by sending prior notice to the Client. Before closure (except in cases of violation), the Client must withdraw all funds from the balance (taking into account: (1) withdrawal rules and limits; (2) fees; (3) wagering requirements).
- The Provider reserves the right to invalidate a betting agreement (including one concluded before or after the start of the event), refuse to pay any winnings, and/or not return the stake if it is established that the event was subject to match-fixing, manipulation, or other integrity violations.

Standard types of cricket bets come in several variants:
- to win the tournament. A cricket tournament does not have a large number of participants, which makes it easy to analyze the lineup and bet on this market;
- a bonus system and special offers for newcomers and active users;
- whether there is a bonus system. The presence of bonuses and promotional offers provides the opportunity to receive free bets or withdraw won funds after meeting certain requirements of the operator. Table tennis betting online at BC Parimatch Uzbekistan.

- Table tennis unites millions of spectators and fans around the world. This sport has gained popularity due to its high dynamics, as well as simple and understandable rules. It is worth betting on table tennis simply because the outcomes of matches in this sports discipline are fairly predictable. Players only need to choose Parimatch promo codes and understand the types of bets, as well as determine the favorite in a match through simple analysis.
- Table tennis betting today takes place within several tournaments. Each of them has a specific regulation that should be reviewed in advance. The organizer must specify the maximum duration of the match, for example, up to 7 sets. According to the Olympic rules, which are the most common, the game is played until 4 wins. In less popular tournaments, the game may be played until 3 wins or up to 5 sets.
- You can bet on table tennis with a handicap, which is a very common choice among bettors. This option involves setting an additional handicap for one of the sides. Handicaps can be by points, by sets, or by scoring in an individual set. Before choosing such a bet, you need to find out how many sets the match will last. Most often, tournaments are held with five or seven sets, that is, until 3 or 4 wins, respectively. For this reason, the handicap will not be greater than 3.5. If you choose a handicap by points, it can be any value. When choosing such an option, it is better to focus on the players' style rather than the size of the handicap.
- That is precisely why experienced bettors always do their own pre-match preparation. All necessary information is available on the internet, so to increase your personal chances of winning, it is enough to carefully study the upcoming matches. As practice shows, competitions involving athletes from China often end in their favor. It is in this country that table tennis has become incredibly popular, so many tournaments are held on its territory. At the same time, the CIS countries also have a good table tennis school, so domestic athletes can compete for high awards.

- When calculating the bet, the official result is taken into account if bonus points are scored in the specified raid.
- A super raid is counted if the raider scores three or more points (these can be touch points, bonus points, or technical points) for their team in one raid. Only the number of super raids is counted, not the points earned.
- A player's raid points are defined as the points scored by the specified player through Touch Points and Bonus Points. These points do not include:

- All runs scored on that ball are counted; the ball must be legal and played. Any illegal deliveries ("wides" and "no balls") will not be considered balls for the purposes of this market. For example, even if two "wides" were bowled in this over, the over will still have only 6 legal balls. For clarity, if the specified ball is a "wide" followed by a boundary four, then the market result will be calculated as 5. The ball must be delivered legally for bets to stand. If the specified ball is a "no ball" and leads to a "free hit", runs scored from the "free hit" will be counted. For example, if the ball is a "no ball" followed by a six from a "free hit", then the market result will be 7.
- Only fours/sixes credited to the batsman's score are counted. "Byes", "Leg byes" or "Wides" are not counted. Fours hit from a "No Ball" will be counted if the four is credited to the batsman's score. The over must be played in full unless the batting team is "All Out" or reaches its target within the over, unless the result has already been determined. Overthrows are not credited to the batsman's score and therefore are not counted for the purposes of this market. If a total of six runs are scored from an individual delivery in the over, but it is not a six hit by the batsman, this is not counted for the purposes of this market.
- The over must be played in full unless the batting team is "All Out" or reaches its target within the over, unless the result of this market has already been determined.
- 3 etc. (total number of game cards) is determined by the Tournament rules and indicated in the betting line. If the game regulations have been changed, bets will be void.

Volleyball bets online at bookmaker Parimatch Uzbekistan.

- In modern realities, online volleyball betting is among the top five most popular sports for forecasting. The specifics of the game and volleyball tournaments largely contribute to successful forecasting. Therefore, users of the bookmaker pmstan from Uzbekistan and other countries show increased interest in this area of betting. This review characterizes the features of volleyball betting, as well as the advantages of the official website of the bookmaker for forecasts and betting in general. To start placing bets, it is enough to perform Pari Match login from the mobile version and immediately proceed to selecting events.
- The strong interest of bettors in volleyball betting is caused by a number of reasons. Firstly, in tournaments involving many teams, games with clear underdogs and favorites are often encountered. This contributes to a high probability of accurate forecasts with relatively high event odds. Secondly, events in men's and women's volleyball are well covered on the internet and in the media. Therefore, bets on volleyball matches are quite highly rated among online betting enthusiasts. Another reason for the significant demand for this category of sports on the internet is its year-round availability.
- Also, users registered on the bookmaker pmstan website can predict the winners of championships or tournaments. For betting in this sport, attractive odds are usually offered. Moreover, such positions are recommended to be chosen well before the end of the championship. It is at this stage that the odds are the highest, which makes it possible to place a volleyball bet with maximum benefit.
- favorable odds for volleyball tournament and championship games;
- In addition, pmstan offers a convenient, simple, and fast registration procedure. It takes no more than two to three minutes, and you can start it right now. We remind you that upon registration on the website you will have the opportunity to receive a bonus from the company. Promotions are held regularly on the portal!

- one Client has multiple Accounts (multi-accounts), including new accounts under another name;
- the Client uses other persons' data to register new Accounts;
- the Account is used for arbitrage rather than for real bets;
- The Provider has the right to set individual maximum limits for individual events or Client Accounts, as well as to introduce and lift special restrictions without notice or explanation of reasons.
- (iii) any winnings may be subject to verification and confirmation by the game administrator before being credited to the Client's Account balance. The Provider reserves the right to apply such verification to winnings exceeding a certain amount set by the Provider at its sole discretion.
- (i) the Client's Account must contain an amount exceeding the established maximum bet limit;

- "Account"
- By registering an Account with the Provider or otherwise gaining access to and using the Website, the offeror specified in clause 2.1 expresses acceptance of the above offer and these Rules, as a result of which they become a binding agreement between the Provider and such offeror, and from the moment of acceptance such person becomes a Client.
- The Client undertakes to interact politely with the Provider's support service, to avoid using profanity, threats, or insults. Violations (including the use of profanity, threats, or spam) may result in temporary suspension of access to support (from 1 day to 3 months) or restriction of the Account at the Provider's discretion.
- If the Client has actually withdrawn any funds in violation of the prohibitions described in clause 4.2, all such funds are considered erroneously transferred and remain the property of the Provider, and the Client is obligated to return them. The Provider reserves the right to withhold such amounts from the Client's Account.
- The Client is obligated to ensure that the Account contains accurate data (full name, phone number, date of birth, etc.) and to promptly update the data in the Account settings when it changes. Some changes may require additional verification.
- The Provider has the right at any time at its sole discretion to request from the Client documents and information to confirm their ownership and lawful use of the Account, as well as for the purposes of combating fraud and money laundering (AML). Such documents may include, in particular, but are not limited to:
- If fraud is suspected, the Provider may require video verification of the Client's identity. Refusal to comply with the requirement within the specified period may lead to blocking of the Account and confiscation of funds.
- Violation by the Client of any provisions above is considered a material breach of these Rules. In this case, the Provider has the right to withhold all funds in the Account as a penalty (without prejudice to other remedies under law and these Rules), as well as immediately terminate these Rules and close the Client's access to the Account and the Website.

- The Client is solely responsible for the security of the data for accessing the Account. The Client agrees that if a third party gains access to the Account as a result of the Client's failure to comply with security measures, any activity of such person is considered the Client's activity, and the Provider is not liable for the Client's losses. Such cases may be considered as providing access to a third party, which is a violation of these Rules.
- The Client, subject to continuous compliance with all provisions of these Rules (including provisions on verification), has the right to use their Account to place bets with the Provider through the Website. The Client acknowledges (except for the provisions of clause 2.6) that the Provider offers real-money games through the Website and, wishing to place a bet, the Client must use real money.
- The Client hereby authorizes the Provider to debit funds from the Client's Account as payment for bets placed by the Client.
- The use of automated software, bots, or artificial intelligence to influence the gameplay or obtain an unfair advantage is strictly prohibited. The Provider monitors such actions and has the right to suspend Accounts, void bets, and confiscate funds.
- Collusion between players, including the transfer of information about closed cards or coordination of bets, is prohibited and may lead to blocking of the Account and confiscation of funds.
- The Client agrees that any communication from the Provider is considered proper if it is sent to the contact details specified by the Client in the Account. All such messages are considered delivered at the time of sending.
- If the Provider erroneously credits to the Client's Account winnings that do not belong to the Client (due to a technical error, incorrect odds, human factor, etc.), such amounts remain the property of the Provider and are subject to debiting. If the Client has managed to withdraw the specified funds before the error was identified, they are considered the Client's debt to the Provider. In case of erroneous crediting, the Client is obligated to immediately notify the Provider.
- In the event of termination of the agreement due to violation of these Rules, the offer (section 2) is considered not addressed to such Client, and they have no right to create a new Account.
- The Client's Account may be closed at their request. To do this, it is necessary to contact the support service with the corresponding notification. Before closing the Account, the Provider conducts a check to ensure that the request came from the Client.
- In the event of Account closure for violation of these Rules, the Client is prohibited from creating new Accounts and using the Website.

- Type of extra run

- What will be the next type of extra run conceded by the bowling team?
- Possible outcomes: wide (wide delivery), no-ball, leg-bye, bye or penalty runs.

Right now you can place bets on fights in a variety of combat associations:
- You can place bets on fights MMA on the total by rounds. During a bout between fighters who use the same style, the bookmaker may offer a total bet. The duration of rounds is usually 5 minutes, and their number does not exceed three periods. At the same time, during title fights the conditions may change somewhat. For example, instead of 3 rounds, five may be required to determine the winner. If you bet on the total over or under, you can hit the jackpot simply by studying the fighter's strategy. For example, many athletes like to perform in an economical mode, winning within 1-2 rounds. In that case, betting on the total under 3.5 will be a profitable decision.
- To bet on no-rules fights and win, it is necessary to determine the bookmaker's rules regarding the settlement of completed rounds. - may at any time assign and novate any of its rights in favor of any third-party gaming operator (subject to applicable law), provided that such successor has all necessary licenses and permits and assumes the performance of all obligations;
- 3.5. Any person using the Website is considered to have accepted all additional rules and policies available on the Website, including, but not limited to, the Privacy Policy and the Bonus Policy. In addition, as to the Privacy Policy, use of the Website is considered consent to the processing of personal data to the extent established by said policy. Personal data is collected for account management, AML/KYC purposes, and the provision of services, and is stored only as long as necessary. The Client has the right to request access, correction, or deletion of data by contacting support@parimatch.com.
- 3.6. The Provider uses the services of a Payment Agent, which may at the Provider's own discretion act as a payment agent for any deposits, withdrawals, or other settlements between the Provider and the Client. For the avoidance of doubt, any provision of these Rules on settlements between the Provider and the Client implies the Provider's right at any time and for any period to appoint a Payment Agent to receive or transfer any amounts due between the parties on behalf of the Provider. By accepting these Rules, the Client is considered to have irrevocably agreed to this right of the Provider and undertakes to recognize such payments through the Payment Agent as correct just as if they had been made directly between the Client and the Provider.
- 3.7. The Provider reserves the right to suspend withdrawals and/or freeze the Client's Account until all necessary verification procedures, KYC, and AML are successfully completed. The Provider may at its own discretion request documents or information, including, but not limited to, confirmation of identity, place of residence, source of income and funds, ownership of payment accounts, or video verification. Until these procedures are completed, withdrawals may be restricted.

- 3.7.1. The Provider reserves the right at any time to request additional documents or information from the Client, regardless of whether the Client has previously undergone initial Account verification.
- 3.8. For the purposes of calculating time periods, the parties agree that all time periods under these Rules are calculated according to the UTC time zone.
- 4.1. The Client may have only one Account. For the purposes of this clause, at the Provider's discretion, Accounts of different actual persons who are members of the same family and/or live in the same household, use the same email address and/or phone, and/or payment account, and/or IP-address, and/or shared device, may be considered as Accounts of the same person.
- 4.2. The Client is prohibited from:
- 4.3. If the Client has actually withdrawn any funds in violation of the prohibitions described in clause 4.2, all such funds are considered erroneously transferred and remain the property of the Provider, and the Client is obliged to return them. The Provider reserves the right to withhold such amounts from the Client's Account.
- 4.4. The Client must ensure that accurate data (full name, phone number, date of birth, etc.) is specified in the Account, and promptly update the data in the Account settings when it changes. Some changes may require additional verification.
- 4.5. The Provider has the right at any time at its own discretion to request from the Client documents and information to confirm their ownership and lawful use of the Account, as well as for the purposes of combating fraud and money laundering (AML). Such documents may be, in particular, but not limited to:
- a photograph of the Client's identity document;
- a photograph or screenshot of a document confirming the Client's place of residence;
- a selfie of the Client with an identity document;
- confirmation of the Client's source of income;
- confirmation of the origin of funds;
- a selfie of the Client with a caption (example: “Hello [Provider's trade name]”) and/or while fulfilling special conditions (winking, turning head/arm, etc.).
- 4.6. All data in the provided documents must fully match the information specified by the Client in the Account. The documents must be valid, and the owner's photograph, date of birth, and date of issue/expiry must be clearly visible. When the Provider requests a photograph of the payment card, the Client is obliged to conceal the three-digit code CVV/CVC. The Provider never requests the code CVV/CVC. The Provider may set additional reasonable requirements for documents (validity period, image quality, language, translation, etc.). In the event of a change in data after the Account is created, the Provider has the right to request documents both 'before' and 'after' the changes, with confirmation of the fact of such changes. The Provider may also use other verification methods (e.g., calls or video communication). Verification timelines are set individually; on average, review of each Client response takes up to five (5) days.
- 4.6.1. If fraud is suspected, the Provider may require video verification of the Client's identity. Refusal to comply with the requirement within the specified period may result in blocking of the Account and confiscation of funds.
- 4.6.2. If the Client fails to provide the requested verification documents or information within fourteen (14) calendar days from the moment of the Provider's request (sent by email, phone, or via remote video verification), the Provider reserves the right to suspend the Account, restrict further gameplay, and refuse to process withdrawals until the Customer Due Diligence (CDD) procedure is completed. If the Client continues to fail to comply with the requirements or refuses to comply, the Provider may terminate the Account and return the remaining net deposit balance to the original payment source, provided there are no suspicions of illegal activity.

- 4.7. In the event of suspected suspicious activity and/or fraud, the Provider has the right to suspend the possibility of withdrawing funds from the Client's Account until their verification is completed. Prior to full initial verification of the Account data, the Provider may, at its discretion, suspend the possibility of withdrawing funds. Furthermore, when initiating additional or repeat verification under this section, the Provider may also suspend withdrawals until the verification is completed.
- 4.8. The Client's violation of any provisions above is considered a material breach of these Rules. In this case, the Provider has the right to withhold all funds in the Account as a penalty (without prejudice to other remedies under law and these Rules), as well as immediately terminate these Rules and close the Client's access to the Account and the Website.
- 4.9. The Client is solely responsible for the security of data for accessing the Account. The Client agrees that if a third party gained access to the Account as a result of the Client's failure to comply with security measures, any activity of such person shall be considered the Client's activity, and the Provider is not liable for the Client's losses. Such cases may be considered as providing access to a third party, which is a violation of these Rules.
- 4.10. The Provider reserves the right to terminate these Rules and close the Client's Account with a refund of the remaining funds (less withdrawal fees, if applicable) at its own discretion, without explanation and without prior notice.
- 4.11. The Provider may declare betting agreements invalid if it establishes that:
- a group of Clients is colluding to circumvent restrictions;
- 4.12. The Bookmaker has lost trust in the Client. If the Client cannot explain the history of bets during a check of the integrity of the concluded bet — on the basis of which principles it was made, what the Client was guided by when placing the bet, why this event interested them, or answer any other questions related to the bet that the Bookmaker network deems necessary to ask the Client — and if the answers provided by the Client leave doubts about the integrity of the concluded bet, this entails a loss of trust of the Bookmaker company in this Client. The foregoing may be confirmed by the size, volume, and structure of bets with the Bookmaker company. The decision made by the management of the Bookmaker company on any of the listed issues (if any) is final. In the event that for any reason the Client has a negative balance, the Bookmaker company reserves the right to take this into account before making any payouts to this Client.
- 5. USE OF THE WEBSITE

- 5.1. The Client, subject to constant compliance with all provisions of these Rules (including provisions on verification), has the right to use their Account to place bets with the Provider via the Website. The Client acknowledges (except for the provisions of clause 2.6) that the Provider provides real-money games via the Website and, wishing to place a bet, the Client must use real monetary funds.
- 5.2. To be able to place bets, the Client must top up their Account with real monetary funds in accordance with section 6. The Client expressly confirms that the Provider is not a financial institution and no interest is accrued on funds deposited into the Account.
- 5.3. The Client hereby authorizes the Provider to debit funds from the Client's Account as payment for bets placed by the Client.
- 5.4. The Client expressly confirms and understands that:
- (ii) use of the Website may lead to financial losses, and the Provider is not liable for such losses.
- 5.5. The Provider reserves the right, at its own discretion, to remove any game, product, or service from the Website at any time.
- 5.6. If the Client has not deposited (or withdrawn) funds to/from the Account or placed bets for twelve (12) consecutive months, the Provider has the right to charge a monthly administrative fee of 5 (five) US dollars

or the equivalent in another currency (or an amount equal to the current Account balance, if less). The Client hereby authorizes the Provider to deduct the specified fee until the Account balance is exhausted (in which case the Provider may close the Account and terminate these Rules immediately) or until the Client makes a new deposit, withdraws funds, or places bets (whichever occurs first). The Provider will notify the Client by email at least 24 hours before applying the administrative fee to an inactive Account. The Client has the right to appeal the Account closure by contacting support@parimatch.com within 30 days from the moment of notification.

- 5.7. The Provider has the right to set a maximum amount for an individual bet for the Client, including different limits for different games and products on the Website, as well as different limits for the same game or product depending on the use of special offers (e.g., bonus ones). The maximum bet amount may vary depending on the sport, competition, event, market, or type of bet and may change at any time without prior notice.
- 5.8. Unless otherwise approved by the Provider or provided for in these Rules, the following general limits and restrictions apply:
- 5.8.1. Once a bet has been placed and confirmed by the Provider's server (including the display of a receipt on the Website with the bet number), the Client cannot change, cancel, or revoke such bet.
- 5.9. If the Client wishes to place a bet whose amount exceeds the established maximum for the given event or type of bet, they have the right to place it as a 'VIP bet', subject to the following conditions:
- 5.10. In the event of inconsistency or discrepancies between the English version of these Rules or any other document of the Provider and a version in another language, the English version shall prevail, which is considered the original and controlling.
- 6.1. Subject to other provisions of this section, the Client may top up the Account using the payment methods available on the 'Deposit' page of the Website at the time of the transaction.
- 6.2. Topping up the Account may only be carried out using payment accounts (e.g., bank card, bank account, e-wallet, etc.) belonging to the Client and registered (issued, opened) in their name. The Provider rejects all payments from third-party accounts. For the avoidance of doubt: a deposit cannot be made from a corporate card or a similar account. If such third-party payments have been credited to the Account, the Client must immediately notify the Provider, and the Provider will deduct the specified funds from the Client's Account. In the event of failure to notify, the Provider has the right, in addition to deducting, to withhold as a penalty the amount of such third-party payments together with the amount of winnings obtained after the deposit of these funds.
- 6.3. The Provider has the right to set a minimum deposit amount (the amount allowed to be deposited via one payment transaction) and to change it at any time. The current minimum deposit amount is always displayed on the 'Deposit' page of the Website. If the minimum deposit amount is not indicated on the specified page, it is deemed equal to 5 (five) US dollars; however, higher limits may be set individually by the relevant payment providers in accordance with their rules and payment processing requirements. The maximum deposit amount per transaction may be limited by the provider of the payment method chosen by the Client.
- 6.4. The Provider does not provide currency exchange services. The internal operating currency of the Website is US dollars (USD), as well as any other currencies available on the Website at the time of or after the Client's registration. In this regard, when topping up the Client's Account, multiple currency conversions may occur, and the Provider is not liable for losses associated therewith.
- 6.5. Deposits and withdrawals may be accompanied by fees depending on the chosen payment method. The current fee structure is displayed on the 'Deposit' and 'Withdrawal' pages of the Website. Additional

fees may be charged by the Client's issuing bank, payment system, e-wallet, or other payment service providers; such fees are beyond the Provider's control and responsibility.

- 6.6. The timeframes for crediting deposits depend on the chosen payment method and may change. The current timeframes for each method are always displayed in the Client's Account at the time of making the deposit and prevail over previously indicated information.
- 7.1. Subject to other provisions of this section, the Client may withdraw funds from the Account using the payment methods available on the 'Withdrawal' page of the Website at the time of the transaction.
- 7.1.1. Withdrawal of funds from the Account is available only after the Client has made at least one successful deposit. Clients who have not yet made their first deposit may participate in individual promotions or no-deposit offers, however, withdrawal of any funds (including winnings obtained within such offers) becomes available only after the first deposit is made and confirmed.
- 7.2. The Client confirms and agrees that, for the purposes of the Provider's compliance with the requirements of AML, when making a deposit, the Client is not entitled to withdraw the specified deposit until the wagering conditions defined below are met (the Provider will reject such withdrawal until these conditions are met):
- 7.2.1. For the purposes of clause 7.2 (including all subclauses), unless expressly stated otherwise, the deposit amount includes the deposit itself and all possible winnings from its use (including winnings from previous bets using this deposit).
- 7.2.2. To withdraw the relevant deposit, the Client must, using it, place bets in a total amount equal to one hundred percent (100%) of the amount of this deposit (winnings, settled bets with odds of 1 and via Cashout are not taken into account). After meeting the wagering conditions, the Client will be able to withdraw the relevant deposit amount.
- 7.2.3. If, after meeting the wagering conditions for a deposit, before withdrawing it, the Client decides to top up the Account with a new deposit, such new deposit is also subject to the same wagering requirements. At the same time, the Client has the right to withdraw previous deposits for which the wagering conditions have been met.
- 7.2.4. If, before meeting the wagering conditions for any deposit, the Client decides to top up the Account with a new deposit amount, such new amount is also subject to the same wagering requirements before it becomes available for withdrawal. For the avoidance of doubt, the fulfillment of wagering conditions is considered separately for each deposit in the order they were made (on a 'first in, first out' basis), and no bet is counted simultaneously toward the fulfillment of wagering conditions for more than one deposit. A fee may be charged for withdrawal of funds; if applied, the exact fee amount is displayed in the Client's Account at the time of submitting the withdrawal request.
- 7.2.5. The Client agrees that any winnings from bets placed using a specific deposit are included in the amount of such deposit and may be withdrawn only after the wagering requirements for it are met.
- 7.2.6. For the purposes of this clause 7.2 (including all subclauses), deposits are used in the following order:
- 7.2.7. The Provider may, but is not obliged to, allow the Client to withdraw funds before meeting the wagering conditions for an additional fee (to cover the Provider's AML risks) in the amount of at least 5% of the deposit amount.
- 7.3. Withdrawal of funds may be carried out only to payment accounts (e.g., bank card, account, e-wallet, etc.) belonging to the Client and registered in their name. The Provider rejects all withdrawals to third-party accounts. For the avoidance of doubt: withdrawal cannot be made to a corporate card or a similar account. Moreover, withdrawal may be carried out only to the payment account that was previously used to make a deposit. If for any reason the Client cannot use this account (e.g., it has expired), then to withdraw funds to

a new account, the Client must first top up the Account with at least the minimum deposit amount from this new account. Only after this can it be used for withdrawal.

- 7.4. The Provider has the right to set a minimum withdrawal amount (the minimum amount allowed for withdrawal via one payment transaction) and to change it at any time. The current minimum withdrawal amount is always displayed on the 'Withdrawal' page of the Website. If the minimum withdrawal amount is not indicated on the specified page, it is deemed that the applicable minimum withdrawal amount is determined individually by the relevant payment provider and may vary depending on the method used. The maximum withdrawal amount per transaction may be limited by the provider of the payment method chosen by the Client; in such case, withdrawal is carried out in parts. Furthermore, the Client agrees that the Provider, based on internal operational specifics, has the right at its discretion to split any withdrawal operation into several (equal or unequal) transactions.
- 7.5. The Provider does not provide currency exchange services. The internal operating currency of the Website is USD and EUR. In this regard, when withdrawing funds, multiple currency conversions may occur, and the Provider is not liable for losses associated therewith.
- 7.6. The Client agrees that:
- (iii) bank transfers in exceptional cases may be accompanied by additional fees from intermediary banks, and the Provider is not responsible for them.
- 7.7. The processing and crediting timeframes for withdrawals depend on the chosen payment method and banking partners and may change without prior notice. The current timeframes for a specific method are always displayed in the Client's Account at the time of submitting the withdrawal request and are considered effective at the time of the operation.
- 8. REFUNDS

- 8.1. All payments made on the Website are final and non-refundable.
- 8.2. Deposit refund requests are considered in accordance with the refund policies of the relevant payment provider. The Provider does not process deposit refunds, except in cases of proven fraud, participation in gambling by minors, or other illegal actions of the Client. In such cases, the remaining funds may be transferred to the affected parties or to charitable organizations at the Provider's discretion.
- 8.3. When processing a refund, the Provider cancels all relevant bonuses and winnings associated with the refunded amount.
- 8.4. If a transaction is deemed risky by the Provider or the payment provider for security or legal reasons, the Provider will initiate a return of such transactions back to the relevant payment account and will notify all necessary authorities and parties.
- 8.5. All expenses arising during the refund procedure are borne by the Client.
- 8.6. The Client acknowledges that all payment operations are processed by external financial institutions and/or payment providers. The Provider does not control such processes. Once a transaction has been successfully processed and credited to the Client's Account, it is considered valid, final, and non-refundable.
- 8.7. The Provider is not liable for any indirect or incidental losses associated with refunds. The Client fully bears all expenses arising during refund procedures.
- 9. ANTI-FRAUD POLICY

- 9.1. The Provider adheres to a strict anti-fraud policy and applies various tools and methods to counter fraud. In particular (without limitation to other possible cases), the following are considered fraudulent actions:
- participation in any form of collusion with other clients;
- 'arbitrage' or other forms of advantage play;

- 9.1.1. In the event of suspected financial fraud, including but not limited to unauthorized use of payment means ('carding'), manipulation of game results, or other fraudulent activity, the Provider reserves the right to:
- (ii) suspend the provision of all services until the investigation is completed; and
- These measures may be applied to minimize losses and ensure the integrity of the Website's operation.
- 9.2. In the event of suspected fraudulent actions by the Client, the Provider reserves the right to suspend their Account and all withdrawal operations. If fraud is confirmed, the Provider has the right to withhold all funds in the Client's Account as a penalty. All payouts of winnings obtained as a result of fraudulent actions are considered erroneous and remain the property of the Provider, and the Client is obliged to return them. The Provider also reserves the right to notify competent regulatory authorities of the Client's fraudulent actions.
- 9.3. If the Client did not commit or was not aware of the fraudulent activity of other persons but participated in a game whose outcome was distorted due to such activity, all results of such game are considered invalid. In this case, all of the Client's winnings are annulled, and bet amounts are returned.
- 9.4. In all cases, the Provider will make commercially reasonable efforts to inform the Client of its decisions, the reasons for their adoption, and the consequences for the Client.
- 9.5. The Provider reserves the right to withhold any payments in the event of suspicions or evidence of manipulation of the Website. Criminal proceedings may be initiated against persons who manipulated the Website or attempted to do so.
- 9.6. If the Client becomes aware of possible errors or incompleteness on the Website, they undertake not to use them for personal purposes and to notify the Provider immediately. In case of violation of this obligation, the Client bears full responsibility for all of the Provider's expenses related to the error or incompleteness and the failure to notify.
- 9.7. The use of automated software, bots, or artificial intelligence to influence gameplay or obtain an unfair advantage is strictly prohibited. The Provider monitors such actions and has the right to suspend Accounts, void bets, and confiscate funds.
- 9.8. Collusion between players, including the transfer of information about closed cards or coordination of bets, is prohibited and may result in Account blocking and confiscation of funds.
- 9.9. Integrity violations, match-fixing, and conflicts of interest.
- 9.9.1. The Provider reserves the right to invalidate a concluded Betting Agreement (including one concluded before or after the start of the event), refuse to fulfill obligations under such agreement (including refusal to pay any winnings), and/or refuse to return any placed bet if:
- (iii) for which the Betting Agreement was concluded by the Client on behalf of a person specified in subparagraphs (i) or (ii).
- This rule applies regardless of when the Provider became aware that the Client is such a person.
- 9.9.2. If the investigation confirms the fact of unfair sports competition during the event or the influence of unfair sports competition on the outcome of the event, the Provider has the right to refuse to return the bet and pay winnings on the relevant bet, as well as to contact law enforcement agencies to verify the Client's involvement and hold them accountable in accordance with the law.
- 9.9.3. If within 1095 (one thousand ninety-five) days from the moment the bet (or part thereof) is recognized as suspicious, the relevant investigations are not completed, the Provider, upon the Client's written request, shall recognize the suspicious bet as invalid (void) and return the bet amount to the Client.
- 9.9.4. For the purposes of this clause:

- (a) Unfair sports competition includes (but is not limited to) situations where the outcome of the event is fully or partially predetermined as a result of collusion among its participants and/or with third parties; where a match-fixing occurred within the meaning of the rules of the respective competition; or where unlawful influence was exerted on the result of an official sports competition or other event.
- 10. RESPONSIBLE GAMING
- 10.1. The Client acknowledges that gambling through the Website should be considered solely as a form of entertainment and cannot be used as a source of income or a way to pay off debts.
- 10.2. In order to promote responsible gambling, the Provider, at the Client's request, applies individual restrictions or excludes the Client from access to the Website.
- 10.3. If the Client wishes to limit their use of the Website, they must send the Provider a written notice specifying the type of limit (see below), the desired duration of its validity, and the limit parameters (e.g., the maximum allowable loss amount over a certain period).
- 10.4. At the Client's request, the Provider will apply the following personal limits within 24 hours (those specified by the Client):
- 10.5. The Client has the right at any time to request the Provider to establish stricter limits (they are applied per clause 10.4) or, conversely, to loosen or cancel previously established restrictions. In the latter case, the Provider considers the request individually and has the right to approve or reject it at its discretion.
- 10.6. After the limit expires, the Client may again use the Website without the restrictions provided for in this section, subject to the general provisions of these Rules.
- 10.7. All requests for the application of responsible gaming limits or self-exclusion are processed within 24 hours from the moment they are received.
- 11.1. The Client may contact the Provider's support service in accordance with the instructions posted on the "Customer Support" page of the Website, or by email at support@parimatch.com, to submit a complaint related to the use of the Website. A complaint is considered by the Provider only if it is submitted within six (6) months from the date of the relevant gaming session. All monetary transactions are processed by independent third-party payment providers according to their own timelines and conditions. The Provider will make all reasonable efforts to assist, but cannot guarantee the speed or outcome of investigations conducted by such providers and is not responsible for delays or actions beyond its control.
- 11.2. The support service will make every effort to promptly consider the complaint and, if the issue cannot be resolved immediately, will refer it to the Provider's managers for consideration.
- 11.3. The Client has the right to a transparent, fair, and effective complaint resolution process. In addition to the internal complaint review procedure, the Client always has free access to an independent alternative dispute resolution procedure (ADR). Full information is set out in the Player Complaint Review Policy, permanently available on the Website at In case of contradictions between this section and the said Policy, the Policy shall prevail.
- 11.4. If the Client abuses their right to submit complaints (e.g., spams, submits numerous unfounded complaints, insults the Provider's employees, etc.), the Provider has the right to restrict the ability to submit complaints or ignore all complaints received from the Client. The Client agrees that the Provider has the right to record all communications with them.
- 11.5. In the event of a dispute, the Client agrees that the Provider's server logs and records are reliable evidence in determining the outcome of any claim. In case of a contradiction between the game result displayed on the Client's screen and the one actually recorded by the server, the server record shall prevail. The Client agrees and confirms that the Provider's records are proper evidence of the conditions and circumstances of the Client's participation in the relevant game and its results.

- 11.6. Escalation to ADR.
- If the Client is not satisfied with the final decision, they may free of charge refer the dispute to an independent ADR process subject to the following conditions:
- (ii) The Client submits a request to ADR before going to court; the decision of ADR is binding on the Client;
- 11.7. The Client agrees that any communication from the Provider is considered proper if it is sent to the contact details specified by the Client in the Account. All such messages are considered delivered at the time of sending.
- 12. OTHER PROVISIONS
- 12.1. The Provider is not responsible for hardware or software failures, unstable or lost internet connection, or any other technical errors that may limit access to the Website or hinder its continuous use.
- 12.1.1. Although the Provider makes every effort to ensure the accuracy of the information displayed on the Website, all data on the current progress of events (including real-time results, statistics, and time) are provided for informational purposes only. The Provider is not responsible for possible inaccuracies. Clients are advised to use additional sources of information. In case of discrepancies between the English version of these Rules and Terms (T&C) and their translation, the English version shall prevail.
- 12.1.2. The dates and times of events displayed on the Website are provided for informational purposes only. An incorrectly displayed date or time is not grounds for voiding a bet. All bets placed before the actual start of the event remain valid. For the purposes of calculating results, the actual start time of the event, as determined by the official organizer or its authoritative sources, shall prevail.
- 12.1.3. The Provider is not responsible for the accuracy of the translation of player names, team names, or event venues. Minor discrepancies in spelling or translation do not affect the validity of bets.
- 12.2. If a bet was accepted or a payment was made as a result of a Provider error, it has the right to cancel all related bets. In such case, erroneous winnings are debited from the Client's Account, and bet amounts are returned.
- 12.3. If the Provider erroneously credited to the Client's Account winnings that do not belong to the Client (due to a technical error, incorrect odds, human factor, etc.), such amounts remain the Provider's property and are subject to debiting. If the Client managed to withdraw these funds before the error was discovered, they are considered the Client's debt to the Provider. In case of erroneous crediting, the Client must notify the Provider immediately.
- 12.4. The Provider, its officers, employees, partners, and contractors:
- do not guarantee that the software or Website meets the Client's purposes;
- do not guarantee that the software or Website is error-free;
- 12.4.1. To the maximum extent permitted by law, the Provider is not liable for direct, indirect, incidental, special, punitive, exemplary, or other damages, regardless of the legal nature of the claims (contract, tort, negligence, etc.), and regardless of the foreseeability of such damages arising in connection with access to, use of, or inability to use the Website.
- 12.4.2. Without prejudice to the foregoing, the Provider's aggregate liability to the Client for any claim arising from these Rules or the Website shall not exceed the lesser of the following amounts: (i) the total volume of the Client's bets for the three (3) months preceding the incident; or (ii) 2 000 (two thousand) euros.
- 12.4.3. In exceptional cases, if the Client's confirmed and documented damage exceeds the standard limit (by no more than three times), the Provider has the right, at its own discretion, to consider compensation in an amount not exceeding three times the limit. This provision is not an acknowledgment of liability beyond the limit and is not an obligation to compensate.

- 12.4.4. The Provider reserves the right to reject any claim regardless of the amount if it is established that the Client has violated these Rules (e.g., multi-accounting, fraud, bonus abuse, providing false data during AML/KYC). In such cases, the Provider has the right to withhold or cancel payments, void winnings, and/or permanently restrict the Client's access to the platform.
- 12.4.5. All claims must be supported by proper and verifiable documents. The Provider has the right to request such documents at any stage of the review. The Client's refusal to provide documents within 7 (seven) days may result in the rejection or reduction of the claim amount.
- 12.5. The Client agrees to fully indemnify and hold harmless the Provider, its directors, employees, partners, and contractors from any liability, claims, expenses, or damages arising from the Client's violation of these Rules.
- 12.6. The Client acknowledges that the final decision on the existence of a violation of the Rules and the consequences (including blocking or suspension of access) is made by the Provider.
- 12.7. In the event of termination of the agreement due to violation of these Rules, the offer (section 2) is considered not addressed to such Client, and they are not entitled to create a new Account.
- 12.8. Assignment of the Client's obligations under this agreement is not permitted. The Client is not entitled to transfer their rights and obligations under this agreement to third parties.
- 12.9. The Client's Account may be closed at their request. To do this, they must contact the support service with the relevant notice. Before closing the Account, the Provider conducts a check to ensure that the request came from the Client.
- 12.10. Regardless of the Provider's right to close the Account in case of violation of the Rules or legislation, it reserves the right to close the Account at its own discretion without explanation, by sending the Client prior notice. Before closing (except in cases of violation), the Client must withdraw all funds from the balance (subject to: (1) withdrawal rules and limits; (2) fees; (3) wagering requirements).
- 12.11. In the event of Account closure for violation of these Rules, the Client is prohibited from creating new Accounts and using the Website.
- 12.12. These Rules are governed by and construed in accordance with the laws of Curacao. All disputes are subject to the exclusive jurisdiction of the courts of Curacao.
- 12.13. If any provision of these Rules is found to be illegal or invalid, it shall be deemed severable, and the remaining provisions shall remain valid.
- 13. INTELLECTUAL PROPERTY

- 13.1. The Provider is the sole owner of its trademarks, logos, software, and Website content. Unauthorized use, reproduction, or distribution of such intellectual property is strictly prohibited and may result in legal prosecution.
- 13.2. The Client undertakes not to use automated or mechanical devices to access or reproduce the Website content without the Provider's prior written consent.
- 14.1. The Provider announces official results based on official records and verified sources after the event concludes. Football betting online at BC Parimatch – Profitable odds and live bets

- Football is the most popular sport in the world, so it is not surprising that football betting is highly popular among bettors. The game has millions of fans worldwide, and the number of local, European, and world championships is in the hundreds. The most prestigious international championships include the World Cup, the Confederations Cup, the Olympic Games, the European Championship, and the UEFA Super Cup.
- Select the desired game.
- Your online football bet will be confirmed, and if the prediction is correct, you will receive your winnings. Please note that winning pre-match bets are settled after the match ends.
- To increase the chances that football sports bets will win, it is recommended to prepare a prediction. To compile it, you will need to analyze the form of the teams, lineups, venue of the match, statistics of past

games, and motivation. Additionally, study and analyze rumors and news, since even changes in personal life can affect the quality of footballers' play.

- Live betting towards the end of the game – the essence of the system is to start betting online after the 85 minute, when the probability of predicting the outcome is maximal!

Handball betting online at BC Parimatch Uzbekistan.

- competently selected money and game tactics;
- Handball is a team game and bets on this game are classic for bookmakers. Each type of handball bet has certain features. And now about each of them in more detail:
- on the outcome. A gambler can bet on the victory of the first or second team, as well as on a draw. Most often, the highest odds are offered on a draw, due to the fact that an equal score at the end of the game is extremely unlikely. A match with two teams of approximately equal capabilities has odds for each of them not lower than 7.00;
- on the exact number of goals scored. One of the most difficult bets, having high odds. Bets on a win with an exact goal difference;
- Before starting to make predictions on any sports events, it is extremely important to study in as much detail as possible the sport you intend to bet on. As for handball, it is not advised to bet on the underdog here. Here, by analogy with football, a random goal scored in the last seconds very often decides the matter. Weak teams extremely rarely win due to luck, which is why one should bet on the losing team only with a positive handicap.
- The handball betting strategy is extremely important for both beginners and experienced players. Do not try to make predictions at random, this never ends well. your bet will win only if you have previously done good work regarding analyzing previous championships, studying all participants of each team, and objectively assessing the capabilities of the playing squads.
- On the internet there are many both paid and free strategies that a gambler is recommended to test in test mode and only then proceed to real predictions. When betting, manage your bank sensibly and be sure to apply a strategy. It is recommended to apply classic analysis before the game and then start watching the broadcast, placing a bet in an informed manner. Remember all the features of handball and the differences from other team games.

Cricket betting online at BC Parimatch Uzbekistan.

- If you intend to bet on cricket and count on real profit, first of all you need to understand the features of the game. The betting pool offers a huge number of outcome options. There are main features of agreements for concluding cricket bets at the pmstan bookmaker:
- on the bowler. For cricket, it is a huge rarity when one of the team members plays significantly stronger and more professionally than everyone else. Betting on the best player is quite risky, however such bets always have high odds;
- on the total points of the best player. In this case, the gambler makes a prediction on the individual results of the team members;
- Advantages of betting for pmstan clients: opportunities for players
- More and more players are choosing pmstan as their permanent bookmaker. The company's advantages are as follows:
- high odds and optimal margin. The ability to place a bet with a high odds increases the chances of large winnings!

- Before starting a prediction on cricket, it is necessary to remember the existence of certain features that can affect the outcome of the game:
- the results of the toss. According to statistics, the team that wins the toss often gains an advantage during the game, since it attacks first and sets the tone for the game;

Testing methods and RNG

- It is important to us that every user playing on the Site has equal chances of winning. That is exactly why the site does not control the results of games, since each of them uses a random number generator (RNG) - a computer algorithm that generates a random number to randomize the result of each game. Thanks to the RNG, all spins, poker deals, or any other actions are truly random and cannot be predicted or manipulated.

Mixed martial arts betting online at BC Parimatch Uzbekistan.

- MMA betting on the Parimatch website takes place in the Boxing/Martial Arts category. Having selected this section, the bettor will be offered a list of organizations, for example, UFC or Bellator. Next, you will need to choose a specific sports event that the player is confident in betting on. All that remains is to choose the outcome and set a suitable bet size.
- Detailed study of the features of sports disciplines is the starting point for achieving excellent results during sports betting. Mixed martial arts is no exception. Players can bet on the outcome of a fight by knockout or technical knockout. Either fighter can win, so before the match you need to familiarize yourself with their fighting style and skills. Points are counted in each round, which helps determine the winner during a clash of two equal opponents. In mixed martial arts a draw is provided for, but it happens extremely rarely, so most bookmakers do not even set this outcome option as possible.
- A traditional victory option is a judges' decision after the allotted time ends. In some cases, you can bet on a split or unanimous judges' decision at the end of the match. If we have a title fight before us, the betting menu will be broader, which players who wish to diversify their betting line should take into account.
- Each player has their own reasons according to which they choose a particular sports competition for betting. Mixed martial arts have gained huge popularity not by chance. Players can easily track athletes' statistics before the fight. You can find out how comfortable it is for a fighter to compete with boxers, wrestlers, or representatives of other styles. You can also find information about recent injuries and the effectiveness of the fighter's recovery after them.
- Mixed martial arts are very popular, so many fights can be watched live. This allows you not only to get money thanks to your favorite player's victory, but also to improve your own mood by engaging in your favorite activity. A rational approach to betting always bears fruit.
- For betting on mixed martial arts today there are many bookmakers. Bettors are best off using the offer of a platform that has many years of experience and a high reputation among players. Parimatch is among exactly such establishments for sports betting.
- Information for betting on mixed martial arts is always freely available. To find it, it is enough to use the internet and study the search results for the corresponding query. Players who use modern platforms where extended statistics are presented can make the task easier for themselves.

Table tennis betting online at BC Parimatch Uzbekistan.

- This sport is distinguished by the fact that each game lasts 3 minutes. A rally usually takes up to 8 seconds, so players do not have to wait long for the match to end. Such features make the match interesting for both pre-match and live betting. A meeting can take place until two, three, or five victories, and players must

change sides of the table after each set. Given the incredible dynamics of the match, bookmakers constantly change the odds on players' victory, so finding truly good quotes on the favorite will be quite easy.

- Serves occur in turn, but given the frequency of serves, this does not have a decisive significance for the outcome of the match. The situation is completely different in big tennis, where the player who serves has a serious handicap. Table tennis equalizes the chances of the serving and receiving sides, so during analysis such nuances can be disregarded.
- A completely different attitude should be taken to the manner in which a particular athlete plays. Pre-match analytics becomes the key to success for players who decide to bet on table tennis. It would also be useful to observe several meetings between players before choosing a favorite among them and betting on him.
- To receive dividends during sports betting, a player will need to familiarize themselves in detail with their specifics. Individual sports allow less time to be spent on preparation. At the same time, table tennis also allows matches in pairs, which must be taken into account before starting the game. The advantage of this sport for the players themselves is that bookmakers can offer a very extensive line and betting menu. In addition to standard bets, you can also use additional outcomes:
- Table tennis betting types allow every player to choose their own effective strategy for winning. Betting on one side to win is the simplest way to make money on sports. In table tennis, the possibility of a draw based on the match result is simply not provided for. For this reason, players are offered only two main outcomes. Another interesting option would be a bet on winning a specific set. Such an option allows you to get a payout significantly faster, without waiting for the entire match to finish.
- To make table tennis betting even more exciting, the bookmaker may offer its players over/under bets. This is a classic betting outcome where the player must predict the possible scoring during a sports match. As with handicap betting, over/under bets are available in several variants. It can be a bet on the total number of sets or a bet on the total points scored in the match. You can also bet on the total for a specific player, determining their likely offensive efficiency.

- Football betting at Parimatch Uzbekistan
- Types of football bets
- Outcome (win of one of the teams/draw);

- total over/under (number of goals scored/pucks/points);
- double outcome (1X, 12, X22);
- qualification (the team that will advance to the next round of the competition);
- both will score;
- next goal;
- half/match (outcome of the first half of the match);
- scoring in halves!
- This is only a separate part of the available markets. But football bets can be more diverse, especially in live, where additional outcomes will appear during the match.
- Features of football betting
- In football, matches are played on a field with grass or artificial green turf. Therefore, it is additionally recommended to check the weather forecast and determine for which of the teams the field will be home. Here matches consist of two halves of 45 minutes each, with a possible penalty shootout series (if the winner was not determined during regulation time).
- How to place football bets on Parimatch
- Open the "Live"/"Line" section.
- Click on the odds to add the outcome to the Bet Slip.

- Football betting strategy
- When placing online football bets, you need to remember the importance of quality preparation and understanding of the sport's features. Additionally, you can use one of the effective strategies. Among the most popular systems:
- "Against a draw" — place bets on the fact that "the teams will not draw".
- Percentage of the bank — this is a strategy that involves placing bets of the same size, calculated as a certain percentage of your bankroll.
- You can follow one of these strategies or choose your own. It is recommended to test the chosen schemes with a minimum bet before applying them in the selected match.
- Why you should place bets at Parimatch

- Bellator;
- ONE FC;
- How to bet on Martial Arts in Uzbekistan?
- You can place a bet on a bout as an accumulator or a single. A bookmaker may either separate mixed martial arts into a distinct category or combine it with traditional boxing bouts. Parimatch Uzbekistan offers a broad range of markets. On the website, you can regularly find interesting offers for betting on title fights. You can bet not only on the outcome but also on the total, which is available even in run-of-the-mill bouts.

- Types of MMA bets
- The line can also offer bets on early completion of the match. Since mixed martial arts involve fighters with different skills and styles, such an outcome is quite realistic. Fighters who adhere to boxing tactics more often finish bouts early. The situation looks completely different when the opponents rely on ground fighting. In this case, the bout can drag on significantly and finish only after the set number of rounds has elapsed.
- Bookmakers also accept bets on the method of victory. A match can finish early by:
- knockout;
- technical knockout;
- voluntary submission of the opponent.
- Advantages of betting on Martial Arts
- For betting, you also need to understand the odds set by the bookmaker. It happens that value offers appear in the line, and they should definitely be taken advantage of. Value bets in mixed martial arts refer to fights where the bookmaker has incorrectly identified the potential winner or other outcomes, so the odds on the real favorite will be higher than they should be. Value bets allow you to earn from sports while reducing the likelihood of losing your personal savings.
- Where to bet on Martial Arts?
- Where to find information about MMA betting?
- What do you need to know about Martial Arts predictions?
- Predictions are used to increase the chances of winning during sports betting. That is precisely why it is so important to find a trusted tipster who will base their own judgments on thorough analysis. Otherwise, the prediction can hardly be called effective.

- Table Tennis betting opportunities at the bookmaker Parimatch
- What types of Table Tennis bets does the bookmaker offer to its visitors
- bet on the winner;
- handicap bet;
- total bet.
- There are also additional types of bets available at certain bookmakers. An additional bet usually involves predicting the final result of a sporting event. For example, bettors may be offered to predict how many sets and games will be played by the athletes. Predicting the score by sets can also be considered an outcome. The bookmaker may offer to predict whether the number of sets will be even or odd. An interesting outcome is determining who will take the first set.
- Detailed specifics of the betting pool at online bookmakers
- Having studied the offered betting options, it is easy to discover that much of the success in sports betting depends on the analysis conducted before the match begins. Experts who follow this sport offer their predictions for upcoming sporting events. It is worth noting that table tennis has gained wide popularity in our country relatively recently, so the quality of predictions often leaves much to be desired.

Sports Rules

- Match winner – predict the winner of the match.
- Bet on the 3 outcome – predict the outcome of an event that has three possible results: the first team wins, a draw, or the second team wins.
- Bet on the 2 outcome – predict the outcome of an event that has only two possible results: the first team wins or the second team wins.
- Total – predict whether the total number of goals scored by both teams in the match will be greater or less than the specified number. If the final total is exactly equal to the specified number, the bet will be void.
- Handicap – predict which team will win after a handicap is applied to the actual score. A positive or negative number of goals is added to the team's final score. If the result with the handicap applied is a draw, the bet will be void.
- Double Asian handicap — this is a handicap bet (H) that is a multiple of 0,25 but not a multiple of 0,5 — for example: H = -0,25, +0,25, -0,75, +0,75, etc.
- Such a bet is interpreted as two separate (simple, "half") bets with the same odds, using the nearest handicap values that are multiples of a quarter point: H1 = H - 0,25 and H2 = H + 0,25.
- The stake amount for each "half" bet is equal to half of the total amount of the "double" bet.
- Double total — this is a type of total bet where the total value (T) is a multiple of 0,25 but not a multiple of 0,5 — for example: T = 2,25, 2,75, 3,25, etc.
- This bet is also interpreted as two separate (simple, "half") bets with the same odds, using the nearest total values that are multiples of a quarter point: T1 = T - 0,25 and T2 = T + 0,25.
- Below are simplified four variants of settlement for such "double" bets:
- Where k is the odds indicated in the line,
- C is the Client's stake amount.
- For settling an "accumulator", the odds K = k are used.
- And for settling an "accumulator", the odds K=(k + 1)/2 will be applied.
- In this case S=0.5*C, and for settling the "accumulator", the odds K=0.5 will be applied.
- In this case S=0, and the odds for settling the "accumulator" are K=0.
- Double chance – place a bet that covers two of the three possible outcomes: home win or draw (1X), away win or draw (X2), or a win by one of the teams (12).
- Correct score – predict the exact final score of the selected match.
- Result and total – predict both the outcome of the match and whether the total will be greater or less than the specified number.
- Both teams to score – predict whether each team will score at least one goal during the match.

- Team to score the Nth goal – predict which team will score the Nth goal in the match (for example, the 1st, 2nd, 3rd goal, etc.).

OP-05. Parimatch — money route

I used account OP-05-A with GEO **Bangladesh**, a personal payment account of the same GEO and currency **BDT**. Game — **Tower Rush original, Galaxsys**, money configuration **TR-BDT-OP-05**, RTP **96,65%**, one tower cap **105 000,00 BDT**. Environment: iPhone15 Pro / iOS18.6.3 / Safari18.6.3. Registration — email, confirmation — email; no new document was requested at registration and deposit. On the first withdrawal no new document was requested; the wallet identity matched the account. This is not a cancellation of future KYC. Initial cash/bonus/locked/pending were 0,00/0,00/0,00/0,00 BDT. I did not activate Welcome, bonus=0,00 BDT; individual showcase offers remained in their cards.
