Stake, article on deposits and withdrawals

The Russian-language article states that limits and fees depend on the currency. The article claims there is no minimum deposit and no upper withdrawal limit. The values refer to the help text at the time of capture. The tariff applies to the currency and state of this help text; BDT scenarios have their own cashier card.

Asset	Minimum withdrawal	Fee
BTC	0.00002504	0.00001571
ETH	0.00062610	0.00067447
LTC	0.01857329	0.00013800
USDT	2.50000000	1.00000000
DOGE	5.49925970	0.52151198
EOS	1.87644594	0.10788480
TRX	7.82408913	0.07336170

The article contains separate help items on topping up with cryptocurrency directly and via Mesh, on crypto exchanges, and on Tron. The dates shown on the help cards are 11.03.2026, 18.06.2025, 25.02.2025, and 20.02.2025 respectively.

Demo Tower Rush for computer

- Disconnection policy: if a disconnection occurs during an active game round after the player's bet has already been accepted by the server, the game will end after an hour of inactivity (in case during that hour the connection has not been restored). In case any winning has been registered, it will be automatically transferred to the player's balance regardless of the disconnection. If there has been a malfunction of the gaming hardware/software, all corresponding game bets and payouts are voided, and all corresponding bets are refunded to the player.

06. Payment methods and GEO

ID	Attribute	Value and scope
06-01	Method name	bKash — deposit method OP-01; available withdrawal methods are disclosed separately.
06-02	Product type	Mobile payment wallet, not a bank card and not a crypto network.
06-03	Country of residence	Bangladesh, player OP-01.
06-04	Payment account country	Bangladesh, payment account OP-01.
06-05	Game account country	Bangladesh, game account OP-01.
06-06	Bank or issuer country	The card-issuing bank does not participate in the wallet route OP-01.
06-07	Availability of registration in the payment service	In OP-01 I used an already identified personal wallet; opening a new wallet was not part of the payment.
06-08	Availability of deposit at the operator	bKash in operation OP-01-D; the presence of this method was not transferred to all brands.
06-09	Availability of withdrawal at the operator	Nagad in operation OP-01-W; this is a separate cashier check, not an inference from the presence of bKash for deposit.
06-10	Wallet currency	BDT.
06-11	Cashier limit currency	BDT; limits relate to a specific method and period, not to all wallets of the operator.
06-12	Sending currency	BDT.

ID	Attribute	Value and scope
06-13	Receiving currency	BDT.
06-14	Wallet identification level	Personal wallet with completed identification; the name matched the name of the game account.
06-15	Bank restriction	Route without a card issuer; a third-party bank account was not substituted.
06-16	Card type restriction	Card was not used; debit and credit card rules did not apply to this episode.
06-17	Method availability without bonus	OP-01 — own funds without activated welcome; the method was used without a bonus.
06-18	Method eligibility for promotion	The deposit did not activate the promotion automatically; bonus eligibility cannot be inferred from a successful payment.

T06. Supported fiat currency of the game account and cashier

ID	Attribute	Value and scope
T06-01	Supported fiat currency of the game account and cashier	BDT: account, deposit and withdrawal of the main six operator episodes, Bangladesh,04–10.11.2026.
T06-01	Supported fiat currency of the game account and cashier	PLN: account, deposit and withdrawal of separate Polish OP profiles; not BDT.
T06-01	Supported fiat currency of the game account and cashier	EUR: account, deposit and withdrawal of separate European OP profiles; not BDT.
T06-01	Supported fiat currency of the game account and cashier	USD: account, deposit and withdrawal of international OP profiles; not USDT.
T06-01	Supported fiat currency of the game account and cashier	INR: original Indian showcase CroreBet, minimum deposit ₹300; not recalculated into BDT.
T06-02	Supported crypto asset of the game account and cashier	USDT: TRC20, account/deposit/withdrawal of separate OP BC.Game.
T06-02	Supported crypto asset of the game account and cashier	BTC: historical reference Stake, minimum withdrawal 0,00002504 BTC, fee 0,00001571 BTC.
T06-02	Supported crypto asset of the game account and cashier	ETH: historical reference Stake, minimum 0,00062610 ETH, fee 0,00067447 ETH.
T06-02	Supported crypto asset of the game account and cashier	LTC: historical reference Stake, minimum 0,01857329 LTC, fee 0,00013800 LTC.
T06-02	Supported crypto asset of the game account and cashier	USDT: historical reference Stake, minimum 2,50000000 USDT, fee 1,00000000 USDT; the network of this row is not transferred from BC.Game.
T06-02	Supported crypto asset of the game account and cashier	DOGE: historical reference Stake, minimum 5,49925970 DOGE, fee 0,52151198 DOGE.
T06-02	Supported crypto asset of the game account and cashier	EOS: historical reference Stake, minimum 1,87644594 EOS, fee 0,10788480 EOS.
T06-02	Supported crypto asset of the game account and cashier	TRX: historical reference Stake, minimum 7,82408913 TRX, fee 0,07336170 TRX.

08. Fees and rates

ID	Attribute	Value and scope
08-01	Operator fee	OP-01-D: 0,00 BDT, 0% from 3 040,00 BDT; OP-01-W: 0,00 BDT.
08-02	Payment service fee	OP-01: 0,00 BDT. Positive fees of other operators belong to their own rows.
08-03	Network fee	OP-01: 0,00 BDT, the route is not blockchain-based.
08-04	Bank fee	OP-01: 0,00 BDT; there was no separate intermediary bank.
08-05	Fixed part of the tariff	OP-01: 0,00 BDT.
08-06	Percentage part of the tariff	OP-01: 0% of the sending/request amount respectively.
08-07	Minimum fee	OP-01: 0,00 BDT.
08-08	Maximum fee	OP-01: 0,00 BDT.
08-09	Deduction method	In OP-01 there are no fees; in other episodes, deduction from the request or a fee on top of the sending is explicitly stated.
08-10	Fee currency	BDT for OP-01.
08-11	Cashier rate	1 BDT account = 1 BDT sending; no currency exchange.
08-12	Rate fixation moment	On confirmation of the request 04.11.2026 09:10:00 UTC+06:00; the rate did not change since the currency is the same.
08-13	Amount after fee	After deposit 3 040,00 BDT; after external withdrawal 1 900,00 BDT.
08-14	Result for the recipient	OP-01-W: 1 900,00 BDT on the external wallet.
08-15	Fee owner	OP-01: operator 0,00 BDT, payment service 0,00 BDT; in the summary table, the fee has a specific owner.
08-16	External fee amount	OP-01: 0,00 BDT.
08-17	External fee deduction method	OP-01: a separate external debit 0,00 BDT; the positive fee in other episodes was not deducted a second time from the casino.
08-18	Full receipt amount after fees	1 900,00 BDT by OP-01-W; the remaining 1 349,00 BDT in the casino is not included in the receipt.

09. Cryptocurrency route

ID	Attribute	Value and scope
09-01	Asset	USDT in a separate episode BC.Game; BDT OP-01 is not renamed to USD or USDT.
09-02	Network	TRC20 for the selected episode USDT; the network is not an asset.
09-03	Movement method	External movement wallet → cashier → external wallet; internal Pay ID does not substitute for the network.
09-04	Address or Pay ID	The destination address was displayed in the cashier of the selected network; the public wallet address is not printed in the text.
09-05	Memo/tag required	The memo/tag was not used in the selected TRC20 route; the rule for other assets was not carried over.

ID	Attribute	Value and scope
09-06	Network support by recipient	Both ends of the selected route used USDT TRC20; sending to an incompatible network was excluded.
09-07	Number of confirmations	20 confirmations for the card of the selected USDT route; this is not a requirement of the wallet BDT.
09-08	Time of sending to the network	The exact sending time of the separate crypto episode is given in its OP row; this stage does not apply to the sending of BDT.
09-09	TXID	The public TXID refers to an existing blockchain transaction; the local ID links the described operation to its record in the database.
09-10	Internal transfer identifier	Local OP-ID link the cashier, game log and receipt; they are not external Pay ID.
09-11	Amount after network fee	The receipt USDT equals the request minus the single indicated network/operator fee on the crypto episode card.
09-12	Status at the operator	Deposit credited and withdrawal sent are recorded separately from the status of the network itself.
09-13	Payment transfer status	The receipt closed the payment route only after the funds appeared in the external wallet.
09-14	Refund in case of unsupported network	An incompatible network was not used; the absence of an accepted sending means 0 USDT of the debit and 0 USDT of the refund, and not a promise to refund erroneously sent cryptocurrency.
